

# Design + Construct

Kansas City, MO  
April 30 – May 2 2018

## CONNECT with U.S. Design & Construction Companies:

Discover Global Markets: Design + Construct will be a dynamic 3-day conference focused on bringing together global leaders in the design and construction sectors. The conference will feature presentations on global construction opportunities, crafted matchmaking and networking sessions to build new business and partnerships. Attendees will include international executives, sales and marketing professionals and project owners and developers.

### Project Prime

Project Prime is designed to help U.S. companies understand the needs and procurement process of leading global design and construction firms. Senior project owners and developers from the design and construction supply chain are invited to play a key role in this conference.

### Site Visits & Training:

Site visits and training are being developed for international attendees to learn from top level sporting venue designers, leading AEC educational institutions, and engineers of world-renown built environments throughout the Kansas City area.

### Specialized matchmaking during DGM:

International executives will have hand-selected one-on-one meetings with leading U.S. design and construction companies, seeking to expand their international distribution, develop JV opportunities and build partnerships.

### Networking Opportunities:

The DGM will provide two reception opportunities for international guests to network with U.S. companies. Additionally, networking lunches offer an opportunity for guests to meet before and after the keynote speakers.

### Benefits for International Executives Attending:

Select international executives will receive complimentary admission to DGM (\$395 value) and a free two-night stay at the InterContinental Kansas City.
